FORWARD LOOKING INFORMATION

CAUTIONARY STATEMENT ON FORWARD LOOKING INFORMATION

These presentation materials ("the Presentation Materials") are being supplied to you for information purposes only on Joshua Gold Resources Inc. (the "Company"). These Presentation Materials have been prepared by and are the sole responsibility of the Company. The Company have taken all reasonable care to ensure that the facts stated herein are true to the best of their knowledge, information and belief. / These Presentation Materials are being distributed only to and are directed at (a) persons who have professional experience in matters relating to investments being investment professionals as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2001 (the "FPO"), (b) high net worth companies, unincorporated associations and other bodies within the meaning of Article 49 of the FPO or (c) persons to whom it may otherwise lawfully be communicated (together "Relevant Persons"). Any person who is not a Relevant Person or who does not have professional experience in the matters relating to investments should not act or rely on this document or any of its contents. / These Presentation Materials do not constitute, or form part of, a prospectus relating to the Company, nor do they constitute or contain any invitation or offer to any person to underwrite, subscribe for, otherwise acquire, or dispose of any shares in the Company or advise persons to do so in any jurisdiction, nor shall it, or any part of it, form the basis of or be relied on in any connection with any contract. No reliance may be placed for any purpose whatsoever on the information or opinions contained in this document or on its completeness and no liability whatsoever is accepted for any loss howsoever arising from any use of this document or its contents otherwise in connection therewith. Prospective investors are encouraged to obtain separate and independent verification of information and opinions contained in the Presentation Materials as part of their own due diligence. / By accepting these Presentation Materials, the Recipient agrees that the information contained herein or sent herewith or made available is for information purposes only. Without prejudice to the foregoing, neither the Company, nor its advisers nor its representatives accept liability whatsoever for any loss howsoever arising, directly or indirectly, from use of this document or its contents or otherwise arising in connection therewith. / The distribution of these Presentation Materials in certain jurisdictions may be restricted by law and persons into whose possession these Presentation Materials come should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of any such other jurisdictions. / Some statements contained in these Presentation Materials or in documents referred to therein are or may be forward-looking statements. Actual results may differ from those expressed in such statements, depending on a variety of factors. Past performance of the Company or its shares cannot be relied on as a guide to future performance. Any forward-looking information contained in these Presentation Materials has been prepared on the basis of a number of assumptions which may prove to be incorrect, and accordingly, actual results may vary.

Kenty Mine Claims Ownership Disclosure

The Company entered into an agreement with Brian MacClay to purchase the Kenty Mine claims, which are comprised of patented mining claims. However, a separate group claimed title and ownership of these patented mining claims, and therefore, the Company is currently in litigation to resolve the title and determine the rightful owners of the claims. The Company has been added as an owner on title as a result of the current legal proceedings to date.

JOSHUA Au GOLD RESOURCES

Company Overview

Joshua Gold Resources Inc. is a mineral exploration business headquartered in Woodstock, Ontario, Canada focused on financing the acquisition, exploration and development of its interests in various staked, patented, and leased mining claims in Canada. It is exploring for gold in the following properties:

- **C1 Property:** JSHG has a JV project with contiguous staked mining claims surrounding the historic Kenty Mine and situated on the Swayze Greenstone Belt where IAMGOLD Corporation discovered the world-class Côté Gold deposit in 2009
- **King Solomon's Mine:** JSHG owns 100% interest in four contiguous staked boundary mining claims (approx. 180 acres) in Davis Township; with gold mineralization occurring in quartz carbonate veins within Nippissing Gabbro sills; geophysical survey and drilling program planned for 2020
- **Carson:** JSHG owns 100% interest in a patented 1200-acre, 21-year mining lease adjoining Damoti Lake and contiguous to Nighthawk Gold Corp.'s property in the NWT where solid gold values have been discovered in their extensive drilling program

JOSHUA Au GOLD RESOURCES

Directors and Management

Benedetto Fuschino, CEO, Director

- President and member of the board of directors of the Company
- President of Friggi N.A. Inc., partner to the international leaders of the steel and aluminum cutting industry
- University of Western Ontario Bachelor of Arts, studies in business and contractual law

Dino Micacchi, CFO, Director, Secretary, Treasurer

- Chartered Accountant with experience in both public and private sectors
- Partner in public accounting firms for the past 26 years
- Bachelor of Arts degree from the University of Western Ontario

- **Joerg M. Kleinboeck, P.Geo**
- **Vice President of Exploration**
- Mr. Kleinboeck is a professional geoscientist with over 20 years of experience in mineral exploration where he has managed early through to advanced staged projects within Canada and the United States. Mr. Kleinboeck holds a Bachelor of Science in Geology from Laurentian University, and is a member of the Professional Geoscientists Ontario (PGO). He has held senior positions for several junior mining companies, and since 2014, he has been the Project Manager for Canadian Continental Exploration Corp. until its successful acquisition by Conquest. Mr. Kleinboeck has been active in the Temagami Mining Camp since 2000 where he has helped to advance projects such as New Age Metal Corp's nearby River Valley PGM Project and discovered the Lismer's Ridge Extension Deposit through prospecting followed by diamond drilling (14 mT PGE-Cu-Ni). Mr. Kleinboeck was involved with the Golden Rose Property in 2010 to 2011 after SNS Silver's completion of their Phase 1 drill program. Mr. Kleinboeck completed two small subsequent drill programs on the Property, leading to the second highest known drill intersection on the Property. Mr. Kleinboeck also owns and operates JMK Exploration Consulting, a geological consulting company and service provider located in North Bay, Ontario.In 2020 Mr. Kleinboeck became the Project manager for Joshua Gold Resources (JSHG) on thier C1 project in the Swayze gold camp..

JOSHUA Au GOLD RESOURCES

Summary | C1 Property

Recent Exploration Work:

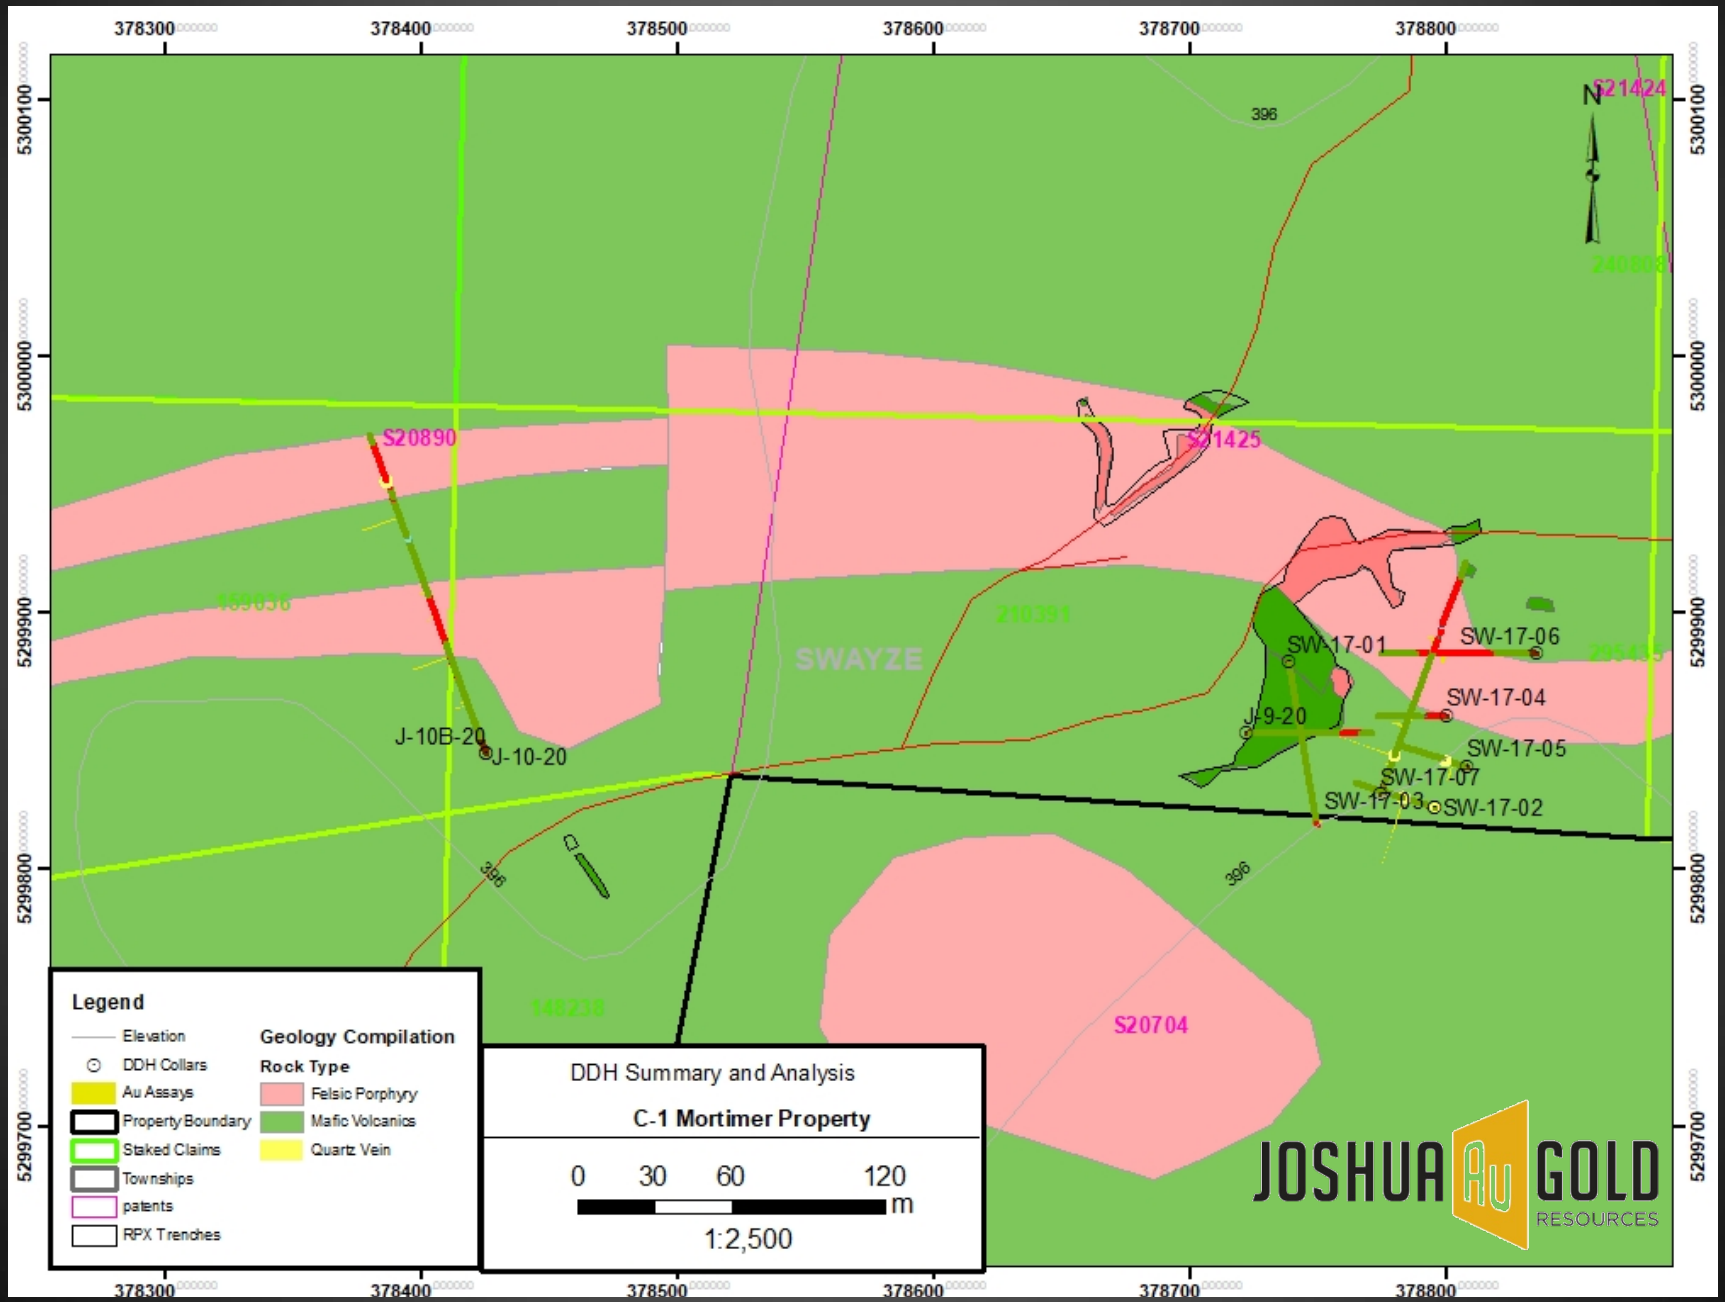

- Drilled eight (10) holes to test continuity of high grade gold mineralization
  - Anomalous gold values were associated with the felsic porphyry and mafic units
  - Best values associated with a flat lying extension quartz carbonate vein
  - Similar anomalous gold values 400 meters west on same felsic porphyry structure
- Work investigated strong pyrite, ankerite and quartz mineralization associated with visible gold
  - Extensional vein at the context of the felsic porphyry and mafic volcanic units

JOSHUA Au GOLD RESOURCES

Summary | C1 Property

Summary | King Solomon's Mine

- Huronian sediments cut by broad Nipissing Gabbro dikes and sills
- Gold mineralization occurs in quartz-carbonate veins
  - Veins infill NW trending fractures in gabbro sills

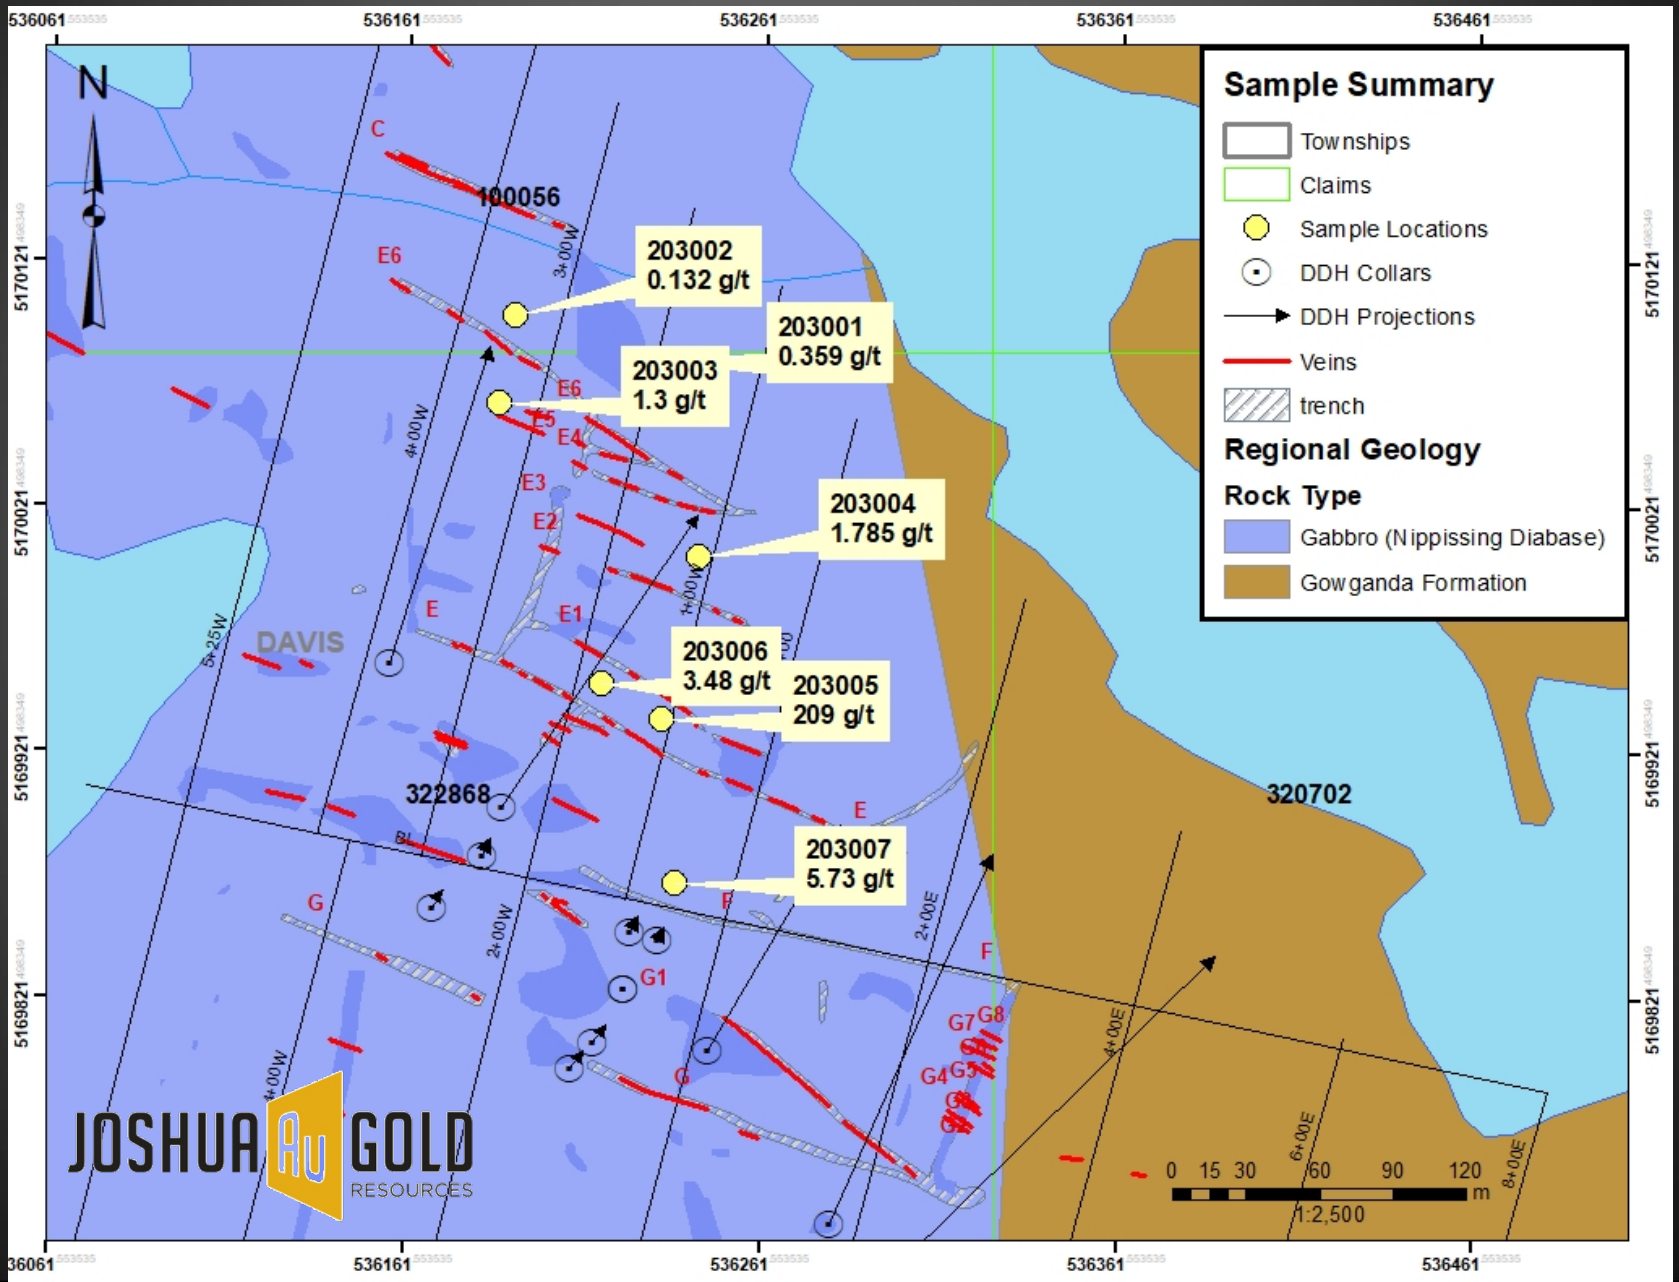

Quartz-pyrite mineralization with minor chalcopyrite. Samples range from 0.5 – 150 g/t in sampling program

JOSHUA Au GOLD RESOURCES

Summary | King Solomon's Mine

Summary | Carson

- Orogenic lode-gold mineralization model
- Mineralization associated with quartz veining in sheared volcanic and voclaniclastic rocks
  - Shear zones parallel to regional deformation structures
- Sampling of Quartz veins in chip, grab samples show mineralization ranges from 0.5 – 91 g/t
- X-ray DDH holes show erratic gold mineralization from 1 – 16 g/t over 2’ intervals
  - Quartz-pyrite-pyrrhotite alteration in veins and stringers associated with gold mineralization
  - Several parallel layers of narrows widths of mineralization occurred

JOSHUA Au GOLD RESOURCES

Future Exploration

- C1 Property
  - DDHs to test mineralization along strike of the felsic porphyry structure
  - DDH to test mineralization at depth to see if grades improve
- King Solomon's Mine
  - Geophysical survey to identify targets at depth associated with mineralization horizons
  - DDH to target geophysical anomalies
- Carson Property
  - Reinterpretation of history DDH and geophysical data
  - DDH on favourable targets
    - Define continuity of lower grade mineralization between high grade zones
