SAFE HARBOR

This presentation is not an offer to sell, or the solicitation of an offer to buy, any securities of the company described herein. Any such offer or solicitation will be accompanied by a private offering memorandum, subscription agreement and related documents and will be limited to investors meeting specified qualifications. Any statements regarding our future financial results or the growth of our company or our industry, and all other forward-looking statements included in or related to this presentation, are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. These statements reflect our current beliefs and estimates, and a number of factors could cause actual results for future periods to differ materially from those anticipated by our presentation. There are many factors that could cause actual results for future periods to differ from anticipated results; and we encourage prospective investors to consider carefully any and all such factors. The Company undertakes no obligation to update or revise any information herein to reflect changes in circumstances.

Everdime, Inc.

- As a result of a reverse merger, Everdime Inc trades on OTC Markets symbol “RGST”
- Symbol change documents filed with FINRA
- 145,500 million shares outstanding
- 5 million float
- DTC & DEWAC eligible
- Market cap approximately \$27 million
- Great conduit for investors to participate in NFTs, tokens and Metaverse

THE PROBLEM

Industry

- **Blockchain & Non Fungible Tokens (NFT)** market place is fragmented
- Developers are not necessary good business managers many underestimating the costs involved
- **Token Exchange Listings are expensive to maintain** resulting in collapse in value of many outstanding protocols

Investors

- **Steep learning curve required** to invest in NFTs, tokens and Metaverse
- **Hundreds of blockchain protocols and thousands of tokens** to chose from, making investment decisions difficult

EVERDIME SOLUTION

- Easy to participate in the crypto, NFT and Metaverse markets by investing in the stock
- Management expertise driven unique, proprietary blockchain technology
- Acquisition of undervalued protocol Tokens
- Asset backed Everdime token in combination with stock used for acquisitions

Everdime, Inc

Wholly owned Business Units
listed below

Operations

NFT and Metaverse related
platform & mobile apps

Recurring Blockchain-as-a-
Service (BaaS) fees.

Transaction fees

Acquisitions

Identify & acquire undervalued
tokens of novel and radical
blockchain technologies.

Assist acquired protocols'
management with business
development and marketing to
help tokens reach optimum
value.

Crypto Asset "Banking"

Acquired tokens banked in
company's crypto wallet

Tokens to be used for staking
and validating to earn fees

Acquired tokens will be used
to create an asset backed
Everdime Token.

Operations

- Client driven innovation utilizing our cutting edge proprietary NFT & Blockchain-as-a-Service (Baas) technology to monetize social networks
- Provide a bridge to the Metaverse by enabling crypto transactions and cross chain NFTs
- Blockchain integrated mobile applications to enable easy NFT & token management
- Revenues earned from Blockchain-as-a-Service (BaaS) & crypto transactions,

Acquisitions

(Blockchain protocol tokens)

- Strong team with in-depth crypto expertise to identify and acquire undervalued tokens of novel and game changing blockchain technologies
- Assist acquired protocols' teams with marketing and development to help the tokens price reach its peak value
- LOI already in place to acquire 30% tokens of 3 protocols (2 Decentralized Finance (DeFi) platforms and 1 non-custodial decentralized NFT platform)

ADDRESSABLE MARKET

- **While still in its infancy** the non-fungible tokens or NFTs' market is expected to reach \$ 9 billion in 2022
- **Metaverse is expected** to be a \$ 1 trillion opportunity
- **Market includes** 10 million musicians, artists, creators, gamers & 40 million social networks with over 50,000 members
- **Acquisitions opportunities** as blockchain protocols and their tokens are fragmented much like tech companies were in the early days of the internet.
- **Blockchain's Assent is Like the Internet** - As each technical layer developed, it unlocked an explosion of creative and entrepreneurial activity.

“Go to Market with Novel Applications

Mobile Crypto Wallet

- “Turns” a smart phone into a secure crypto wallet
- Use mobile device to transfer and receive tokens

Gaming Crypto App

- Crypto investing simulation game
- Over 1800 real tokens to chose from
- Search for and view NFTs

NFT App

- Create NFTs using a mobile device
- Search for and buy NFTs using a mobile device
